

**RHONDDA CYNON TAF PENSION FUND****INVESTMENT STRATEGY STATEMENT****1. Overall Responsibility**

Rhondda Cynon Taf County Borough Council is the designated statutory body responsible for administering the Rhondda Cynon Taf Pension Fund on behalf of the constituent Scheduled and Admitted Bodies. The Council is responsible for setting investment policy, appointing suitable persons to implement that policy and carrying out regular reviews and monitoring of investments.

The Council has created a politically balanced Pension Fund Committee consisting of elected members to oversee the Council's responsibility with regard to the administration of the Pension Fund. This Committee is responsible for the strategic management of the Pension Fund.

The Council has appointed the Deputy Chief Executive / Group Director – Finance, Digital and Frontline Services as the officer with Section 151 responsibilities to exercise delegated powers to make decisions in respect of operational matters of the Pension Fund investments and administration. An Investment and Administration Advisory Panel has been formed to support him in this capacity. This is made up of:

- Service Director – Finance and Improvement Services (Deputy Section 151 Officer)
- Service Director – Pensions, Procurement and Transactional Services
- Service Director – Finance Services
- Principal Accountant, Treasury and Pension Fund Investments
- Senior Accountant, Treasury and Pension Fund Investments
- Independent Advisors

Both the Committee and the Panel meets quarterly. The Council is not strictly a trustee (technically, this is the Ministry of Housing, Communities and Local Government (MHCLG)) but acts in a quasi - trustee role.

In accordance with the requirements of the Public Service Pensions Act 2013, a Pension Board has been established in order to assist Rhondda Cynon Taf County Borough Council, as “Scheme Manager” with achieving effective and efficient governance and administration of the Rhondda Cynon Taf Pension Fund.

The role of the Pension Board as defined by sections 5(1) and 5(2) of the Public Service Pensions Act 2013, is to assist Rhondda Cynon Taf County Borough Council Administering Authority as Scheme Manager to: -

- Secure compliance with the Principal Regulations and any other legislation relating to the governance and administration of the LGPS;
- Secure compliance with the requirements imposed in relation to the LGPS by the Pensions Regulator; and
- Ensure the effective and efficient governance and administration of the LGPS by the Scheme Manager.

The Pension Board will provide oversight of the above matters and accordingly it is not a decision making body in relation to the management of the Fund itself.

Full details of governance arrangements can be found on the following link:  
<https://www.rctpensions.org.uk/EN/RelatedDocuments/GovernanceAndInvestments/GovernanceDocuments/PensionFundGovernancePolicy.pdf>

## **2. Primary Objective**

The Fund's objective is to provide for members' pension and lump sum benefits on their retirement or for their dependants' benefits on death before or after retirement, on a defined basis in accordance with LGPS regulations.

## **3. Funding Objectives**

Rhondda Cynon Taf County Borough Council should manage the Fund in such a manner that, in normal market conditions, all accrued benefits are fully covered by the actuarial value of the Fund's assets and that an appropriate level of contribution is agreed by the Authority to meet the cost of future benefits arising.

The Funding Strategy Statement and the Investment Strategy Statement are intrinsically linked and together aim to deliver stable contribution rates for employers.

The investment objective is to maximise returns subject to an acceptable level of risk whilst increasing certainty of cost for employers, minimising long term cost.

The Fund's objective is to achieve a return on Fund assets that is sufficient, over the long-term, to meet the funding objectives on an ongoing basis.

The Deputy Chief Executive / Group Director - Finance, Digital and Frontline Services supported by the Investment and Administration Advisory Panel will ensure that one or more Investment Managers are appointed who are authorised under the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016 to manage the assets of the Fund. Contracts / mandates are in place giving instructions to the Managers as to how the investment portfolio is to be managed.

The Pension Fund Committee having taken account of advice from the Deputy Chief Executive / Group Director – Finance, Digital and Frontline Services may give specific directions as to the strategic asset allocations and will ensure the suitability of assets in relation to the needs of the Fund. The Investment Managers (each of which will have a benchmark and target to reflect their mandate) will be given full

discretion over the choice of individual stocks and will be expected to maintain a diversified portfolio within the restrictions specified in each mandate.

#### **4. Diversification Policy : *Requirement to invest fund money in a wide variety of investments***

The Fund invests in a range of asset classes to help reduce overall portfolio risk. This will ensure that if a single asset class is not performing well, this underperformance is balanced by other better performing assets at that time. The portfolio is also diversified to reduce volatility in performance.

The Fund is diversified into the following asset classes:

- Equities
- UK Gilts
- Corporate Bonds
- Property
- Infrastructure
- Cash

The Fund commissioned an Asset / Liability review in 2020, the fundamental aim of which was to position the Fund's investments in order to:-

- Reduce risk
- Maintain (as far possible) return expectations
- Minimise long term costs
- Increase diversification
- Optimise the transitioning of assets into the Pool
- Introduce Infrastructure (align to Pool aspiration)

thus ensuring the Pension Fund is being invested in the most efficient way.

Aon was appointed to give their view on the risk/return of the Pensions Fund's current investment strategy. Following on from this they were requested to comment and recommend alternatives that could deliver the Fund's long term objectives.

Simulations were undertaken for different portfolio asset strategies. The model estimated the probability of achieving a variety of funding outcomes over different time periods given the current asset allocation strategy. The majority allocation to equities in the portfolio gave a potentially high return, but was also the most significant contributor to overall risk.

Alternative asset allocation strategies were reviewed as a potential means of increasing diversification and reducing risk. Options were reviewed by the Panel, Committee and Board. It was noted that the Rhondda Cynon Taf Pension Fund was not particularly high risk compared to other LGPS funds and that some of the potential alternatives resulted in entering into asset classes that were expensive and difficult markets to enter.

The Committee concluded that the Fund should move toward the following asset allocation strategy with steps set out to achieve the desired allocation.

Asset Class	Pension Fund's allocation (31/03/2024)	<b>Step 1</b> Reduction in Equities, increase in Govn and Corp Bonds	<b>Step 2</b> Reduction in Equities for infrastructure investment	<b>Step 3</b> Reduction in equities for additional infrastructure investment
Total Equities	65%	64%	59%	54%
Infrastructure	1%	0	5%	10%
Property	6%	7%	7%	7%
Government Bonds (UK)	12%	12%	12%	12%
Corporate Bonds (UK)	15%	15%	15%	15%
Cash	1%	2%	2%	2%

Following the above, the target and maximum percentages of total value of all investments that we will invest in particular investments or asset classes was as follows:

<b>Asset Class</b>	<b>Target % of Fund</b>	<b>Max. % of Fund</b>
Equities	54%	75%
Government Bonds	12%	35%
Corporate Bonds	15%	15%
Property	7%	15%
Infrastructure	10%	10%
Cash	2%	5%

The above target forms the basis of a customised benchmark which the Fund's performance is monitored against. The customised benchmark moves in line with market volatility. The asset allocation of the portfolio is not rebalanced on a routine basis but is reviewed annually to ensure the target return is not adversely impacted.

We may not permit more than 5% of the total value of all investments of fund money in entities that are connected with the Authority in line with Section 212 of the LG and Public Involvement in Health Act 2007.

In assessing the diversification policy, the Fund will consult with Independent Advisors.

## **5. Asset Allocation Policy : *Assessment of the suitability of particular investments and types of investments***

Investments are selected with their suitability to meet the Fund's overall objective of meeting pension obligations as they fall due. The level of return required is informed by the triennial actuarial valuation.

In the long term, low volatility assets such as gilt-edged investments behave in a similar manner to pension liabilities and would therefore “match” the attributes of pension obligations. However the requirement to achieve a longer term higher rate of return is, on average, achieved by other classes of assets such as stocks.

The current portfolio has been constructed with actuarial and independent advisor advice to achieve a specified level of return within risk parameters.

A management agreement is in place for each Investment Manager which sets out the relevant benchmark, performance target, asset allocation ranges and any restrictions as determined by the Pension Fund Committee.

The following demonstrates the allocation of the Fund as at March 2024 :-

	% of Fund Invested
Equities	9.5
Pooled Fund	
WPP Global Equities	47.6
WPP Sustainable Equities	2.4
WPP UK Credit	15.0
WPP Infrastructure (Closed ended)	0.4
WPP Local Investment	0.1
Other Pooled Funds	
Passive UK Gilts	5.9
Passive Equities	11.5
Pooled Property	6.2
Infrastructure	0.8
Cash & Deposits	0.6

The Pension Fund Committee has agreed not to invest in private equity at the present time.

The Pension Fund Committee has agreed to stock lend in line with the following principles :

- Appropriate collateralisation and indemnification;
- A level of stock is held back to maintain ability to vote;
- The ability to call back stock to vote on specific issues.

The Asset Allocation Strategy is reviewed annually by the Investment and Administration Advisory Panel to ensure that returns, risk and volatility are managed and consistent with overall investment strategy.

## **6. Policy On Risk : *Approach to risk, including the ways in which risks are measured and managed***

The Fund maintains a Risk Register that is agreed by the Investment and Administration Advisory Panel and reported to the Pension Board and Pension Committee on a quarterly basis. The risk register examines funding, investment, operational, governance and regulation issues, ranks risks in terms of likelihood and impact and details mitigation measures.

### **Investment Risk**

This covers items such as the performance of financial markets and the Fund's Investment Managers, asset reallocation in volatile markets, leading to the risk of investments not performing (income) or increasing in value (growth) as forecast. Examples of specific risks would be:

- assets not delivering the required return (for whatever reason, including manager underperformance)
- systemic risk with the possibility of interlinked and simultaneous financial market volatility
- insufficient funds to meet liabilities as they fall due
- inadequate, inappropriate or incomplete investment and actuarial advice is taken and acted upon
- counterparty failure

The specific risks associated with assets and asset classes are:

- equities – industry, country, size and stock risks
- fixed income - yield curve, credit risks, duration risks and market risks
- alternative assets – liquidity risks, property risk, alpha risk
- money market – credit risk and liquidity risk
- currency risk
- macroeconomic risks

The adoption of an asset allocation benchmark and the monitoring of performance relative to a performance target constrains the investment managers from deviating significantly from the intended approach, while permitting flexibility to manage the Fund in such a way to enhance returns.

The overall investment objective is to maximise investment returns and to minimise employer contributions over the long term within agreed risk tolerances.

The requirement is to be 100% funded. The funding level is calculated triennially, following an actuarial review.

The Fund's assets are managed on an active basis (except the Global Passive Equity mandate and the Passive UK Gilt mandate) and are expected to outperform their benchmarks over the long term. In this way the investment performance achieved by the Fund is expected to exceed the rate of return assumed by the Actuary within the valuation.

The Fund's Investment Managers have been given weighted average benchmarks and targets to reflect their mandates. Both asset allocation and stock selection is monitored. The current targets for each mandate are as follows:-

<b>Portfolio</b>	<b>Portfolio Benchmark Index</b>	<b>Portfolio Target</b>
Traditional equity	UK - FTSE All Share US – FTSE All World Europe – FTSE All World Europe Far East – FTSE All World Developed Asia Other Intl – MSCI Emerging Index	Composite Index +1% pa over rolling 3 year period
Global passive equity	MSCI World Low Carbon Target Reduced Fossil Fuel Select 12 BST	Index
Global high alpha equity	MSCI All Countries World Index	Index + 2% over rolling 3 year period
Infrastructure		9% IIR (net of fees with a 4% p.a. cash yield)
Passive UK Gilt	FTSE Actuaries UK Conventional Gilts All Stock	Index
UK Credit	ICE BofA ML Eur-Sterling	Index plus 0.65%
Property	CPI plus 4.5%	

Review of the Investment Managers is ongoing based on the quarterly and annual performance data supplied to the Panel by external performance management agencies.

The appointment of more than one Investment Manager introduces diversification of manager risk as discussed above.

Each Investment Manager is expected to maintain a diversified portfolio of investments and adhere to restrictions imposed within their agreement.

Investment Managers also have investment restrictions as follows:

	Max. 10% in any single holding	Max. of 10% held in cash	Max. of 5% held in cash	No single overseas equity exceeds 5% of total value of fund	Max. holding of 25% in trust scheme	Max 25% in Emerging Markets
Baillie Gifford Traditional Equities	X	X		X	X	
WPP Global Growth Fund	X	X			X	
WPP Global Opportunities Fund	X				X	X
WPP UK Credit	No limits as pooled funds					
BlackRock Passive Equities	No limits as pooled funds					
BlackRock Passive UK Gilts	No limits as pooled funds					
BlackRock GIS4 Solutions	No limits as pooled funds					
CBRE Property	X		X			

The performance of both markets and Investment Managers is reviewed regularly by the Investment and Administration Advisory Panel, which has the appropriate skills and training required to undertake this task. The Panel is also supported by Independent Advisors providing advice to enable the Panel to robustly fulfil its functions.

### Environmental, Social and Governance risks

The Fund believes that environmental, social and governance (ESG) factors should be taken into account on an ongoing basis and are an integral part of the Fund's responsibilities as a long-term sustainable investor.

The Fund is committed to carbon transition and to the parallel process of reducing fossil fuel exposure.

Fund engagement with investee companies is crucial in relation to improving standards of corporate governance, which over the long term is expected to enhance investment returns.

## **7. Approach to pooling investment, including the use of collective investment vehicles and shared services.**

The Wales Pension Partnership (WPP) has appointed Waystone Management (UK) Limited (Waystone) to run the collective investment vehicle for the sole use of the LGPS funds in Wales. This will enable the pooling of assets across a range of asset classes.

Waystone run the Authorised Contractual Scheme (a tax efficient UK collective investment vehicle) on behalf of the WPP. The ACS will have sub-funds in a range of asset classes that will meet the needs of the LGPS funds in Wales, to allow them to execute their differing asset allocation strategies.

With the support of Russell Investments, and in consultation with the eight individual LGPS Funds, Waystone appoint Investment Managers. Each LGPS Fund in the pool will retain full control over strategic asset allocation decisions. Northern Trust will have custodian duties.

By using fewer Investment Managers with larger mandates, it is expected that the WPP will deliver fee savings, one of the primary aims of Government policy. A summary of the pooling objectives of the WPP are:

- Generate consistent net of fee excess returns.
- Diversify manager risk.
- Reduce average manager fees.
- Achieve tax efficiency by reclaiming withholding tax on dividends (for non-UK equity sub-funds).
- Equitably share the costs of transitioning into sub-funds.

Progress continues to be made by the Wales Pension Partnership (WPP) in the establishment of appropriate sub funds to satisfy the investment objectives across the Welsh Funds. The first two sub funds for the collective investing of assets were launched during January 2019 and related to Global High Alpha Equities. The sub fund for UK and European Equities was launched during September 2019. The third phase related to Fixed Interest with five sub funds being launched during July 2020 (Global gilts, global corporates, UK corporates, multi asset credit and absolute return bonds). The fourth sub fund related to emerging market equities and was launched October 2021. The private credit sub-fund was launched in April 2023, infra-structure sub-funds in May 2023 and Sustainable Active Equity in June 2023.

## **8. How social, environmental and corporate governance considerations are taken into account in the selection, non-selection, retention and realisation of investments.**

The overriding principle of the Fund's investment policy is to obtain the best possible financial return using the full range of investments authorised under the Local Government Pension Scheme regulations.

Although the pursuit of a financial return is our predominant concern, where possible, the Fund is committed to include Responsible Investment factors (environmental, social and corporate governance factors) into the investment process. These non-financial factors are considered to the extent that they are not detrimental to the Fund's investment returns. The incorporation of these factors into Investment Managers' stock selection decisions should serve to enhance the process, rather than restrict choice in any way. The Fund does not negatively screen stocks from the investment universe available to Managers.

The Fund requires its Investment Managers to integrate all material financial and non-financial factors, into the decision-making process for all investments. Furthermore, it expects its managers to proactively engage, influence and promote good corporate governance in the companies and markets to which the Fund is exposed. The Fund's Investment Managers provide updates on their activities in this regard.

All of the Fund's Investment Managers are signed up to the United Nations Principles of Responsible Investment (UNPRI) which encourages asset owners and asset managers to incorporate environmental, social and governance (ESG) issues into investment analysis and decision making, be active owners, seek disclosure of ESG issues and promote the principles within the industry.

The six principles are:

- We will incorporate Environmental, Social and Governance issues into investment analysis and decision-making processes;
- We will be active owners and incorporate Environmental, Social and Governance issues into our ownership policies and practices;
- We will seek appropriate disclosures on Environmental, Social and Governance issues by the entities in which we invest;
- We will promote acceptance and implementation of the Principles within the investment industry;
- We will work together to enhance our effectiveness in implementing the Principles; and
- We will each report on our activities and progress towards implementing the Principles.

The Pension Fund is a member of the Local Authority Pension Fund Forum (LAPFF). LAPFF exists to promote the investment interests of local authority pension funds, and to maximise their influence as shareholders while promoting corporate social responsibility and high standards of corporate governance among the companies in which they invest.

The Fund recognises the focus and financial risks associated with climate change, fossil fuels and carbon management. The Fund remains committed to an orderly carbon transition and has set out its approach in Appendix A to this Investment Strategy Statement.

The Fund is also committed to adhering to the principles of the Stewardship Code.

## **9. Exercise of Voting Rights attached to investments.**

Long term investment interests are enhanced by the highest standards of corporate governance and corporate responsibility. Poor governance can negatively impact shareholder value.

This Fund recognises the importance of stewardship and engagement via the equity fund managers is exercised to exert a positive influence on companies.

The Wales Pension Partnership has employed a voting and engagement provider to exercise its voting rights to promote good corporate governance and social and environment responsibility. A proportion of stock is held back from stock lending activities to facilitate this. The Provider supplies quarterly voting activity reports.

The Equity Fund Manager employed outside the WPP is expected to exercise their voting rights. The Fund has agreed a voting template which incorporates best practice governance guidelines. An independent voting agency is employed to monitor and compare the voting records of the manager against this template. The manager provides quarterly voting activity reports.

## **10. Myners Principles of Good Investment Guidance.**

The Fund assesses and reviews its own compliance with the Myners Principles annually. The Fund has assessed itself to be fully compliant with the principles below:

- Principle 1. Effective Decision Making
- Principle 2. Clear Objectives
- Principle 3. Risk and liabilities
- Principle 4. Performance assessment
- Principle 5. Responsible ownership
- Principle 6. Transparency and reporting

**Rhondda Cynon Taf Pension Fund – Responsible Investment and Carbon Investment Principles**

The Rhondda Cynon Taf Pension Fund is an open, defined-benefit pension fund as part of the national Local Government Pension Scheme (LGPS).

The nature of the Fund and scheme design means that payment of pensions will extend over the very long term. In considering the Fund's investment strategy, the Fund seeks to operate

- a long term, sustainable strategy;
- one which does not rely upon the pursuit of short term returns;
- a well-structured asset and fund manager investment allocation which targets long term socially responsible, sustainable investment performance.

The Fund deploys a relatively uncomplicated investment structure which seeks to provide a return on investments which is above the level of pension liabilities and which seeks to achieve 100% funding over the long term.

As a long term investor, the Fund must be comprehensive in the consideration and mitigation of risks that the portfolio faces and investments are diversified across a number of asset types.

Rhondda Cynon Taf Pension Fund recognises the investment implications of climate change and carbon emissions.

The Fund is committed to an orderly carbon transition and believes active engagement with investee companies, rather than disinvestment, is the preferred option to bring about change whilst managing overall investment risk issues. In this regard, the Fund requires its Investment Managers to engage with investee companies and seek to ensure that their business objectives are aligned to reducing carbon exposure.

We do however also recognise that there may be instances where disinvestment is an appropriate course of action and have identified principles to guide us in this regard.

This document outlines out how the Fund will approach this divestment, how the risks and other considerations associated with such a commitment will be managed and how the divestment over time will be incorporated into the asset allocation strategy for the Fund.

The overall approach of the Fund to incorporating wider environmental social and governance issues (ESG) is set out in more detail within the Investment Strategy Statement.

## **Principles**

### **1. Responsible Investor**

We are of a firm view that as responsible owners we have a voice and an ability to influence strategic change within investee companies and that this can be more powerful than disinvesting alone.

### **2. Asset allocation**

We will incorporate all ESG factors into our asset allocation and investment strategy considerations.

### **3. Investment Managers**

We will ensure that all our investment managers are signed up to the United Nations Principles of Responsible Investment (UNPRI), that they engage effectively and are transparent in telling us how they are making a difference. Where investee companies are not aligning themselves to reduce long-term carbon exposure then we will disinvest, in an orderly way.

The Fund demands that all its Investment Managers properly consider climate related and other environmental social and governance risks in decision making within their respective portfolios.

As and when investment managers and asset allocations require amending, the risk of fossil fuel exposure will be incorporated into any due diligence regarding risk and reward decision making.

The Fund's passive equity mandate is managed through a low carbon product

### **4. Stakeholder engagement**

The Fund's primary purpose is to be able to pay for pension liabilities over the long term. There are national arrangements in place to reduce pension benefits if the LGPS is unable to sustain itself through loss of value or growth in liabilities. We therefore have a duty to ensure that the future pension entitlements of members are not compromised.

However, we do hold the view of "a world worth living in" as one of our guiding principles.

### **5. Long Term and alignment to global goals**

As an open fund, we are long term investors and must not be overly influenced by short term factors and influences.

### **6. Working Together**

We will collaborate with other Welsh Funds through the Wales Pension Partnership and seek to align our long term goals with our partners. It is important that the Fund works with our partners to share knowledge and best practice as well as utilising collective

assets to push for the most effective and efficient implementation of reduced fossil fuel strategies. We will also work with other funds nationally through our membership of the LAPFF to encourage companies to adopt the highest standards with regard to fossil fuel and energy efficiency.

## **7. Risk Mitigation**

Investment Managers must consider ESG and Climate Change / Carbon Exposure in their investment decisions, specifically with regard to risk mitigation and be clear on any negative implications.

## **8. Transparency**

We will understand the Fund's exposure to Carbon through a systemic approach, engaging with experts to thoroughly and robustly baseline our position and monitor going forward.
